THE SCIENCE IN FASHION

AT DYCHEM TEXPROCESS SHOW

TEXTILE FAIRS INDIA

MEGA SUMMIT

6th-8th July 2023

Pragati Maidan, New Delhi

DyChem is a unique platform that brings together the latest advancements in the world of fibres, yarns, fabrics and garment-related chemicals. The platform focuses on providing a range of innovative and sustainable organic and inorganic solutions that cater to the diverse needs of the textile industry.

One of the key features of DyChem is its comprehensive approach to chemical solutions. The sector will present future-oriented innovations for the international garment-manufacturing and textile processing sectors. Also provides insight into a wide range of application areas reaching all kinds of dyes & chemicals used in nearly all matters of daily business.

DyChem constitutes the ideal place for managers, decision makers or other businessmen involved in the dyes, chemicals & process sector to meet key professionals in order to share knowledge as well as to discuss future aspects of the industry.
